SAVINGS BANK and LIFE ASSURANCE ECONOMICAL MUTUAL LIFE INSURANCE CO., securing by such combination either of the three great essentials of life, "capital for business or family purposes," a "provision for olage," or "a legacy for one's family." Bome of the other advantages of fered by the Company are-First: Its security; the Company have \$1,820 assets for every \$1,000

Second: It is, as it professes to be, a real Mutual Economical Company, established and conducted purposely and solely for the entire bene fit of the insured, as a close scrutiny into its expenses and investment

will prove; consequently, Third: It can afford to charge lower rates than any other mutual company; thus the insured at once reap the advantages justly due them.

Fourth: Premiums not only not forfeited, but a paid-up policy with
dividends issued after the first payment if required.

Fifth: Cash dividends applied to reduce the second and all subsequent Sixth: No extra rates on traveling by sea or lake, officers of the army,

navy, or merchant marine, or on the lives of women. Seventh: The officers and Directors of this Company are men of national reputation, known integrity and ability. The security of the

Company is undoubted, as above above.

Business men, officers of other life insurance companies, and some of the most prominent men of the country have given this Company the preference, the names of whom can be found on our lists of those insured. 'W. T. OKIE. Manager for New-York, 10 Wall-et.

SEVEN PER CENT GOLD BONDS

DANVILLE, URBANA, BLOOMINGTON AND PEKIN RAILROAD COMPANY OF ILLINOIS,

Principal and interest payable in gold at the Farm-

ers' Loan and Trust Company, New-York. Coupons payable April and October 1. FREE OF GOVERNMENT TAX

These Bonds can be registered.

TOTAL ISSUE OF BONDS \$2,000,000. Length of road, 117 5-100 miles. The bonds are limited to less than \$18,000 per mile, and are secured by a First Mortgage on the entire property of the Company, which cost about \$40,000 per nrile, and which, we can say with the utmost confidence, will be worth seen after the completion of the road at least double its cost. The consolidation of this line with the Indianapolis, Crawfordsville and Danville Road places over two hundred miles under one management, and furnishes still further security to the bondholders, these bonds having been assumed (a virtual guarantee) by the consolidated company under the name of the Indianapolis, Bloomington and Western Railroad Company. This is an east and westroad connecting with direct lines to Boston, New-York Philadelphia, and Baltimore on the east, and with the Pacific Roads on the west. It runs through the richest and most populous district of Illinois, the ocal business of which will be more than sufficient to sustain it, while the through business (which will be limited only by the capacity of the road) must make it one of the best paying railways in the country. The

greater part of the road is now finished, and the balance will be completed and thoroughly equipped by the first of January next. About three-quarters of the Loan has been taken by actual investors. We continue to offer, for the present, the balance at 95 and accrued interest in

We here give the advantage and profit to be de rived by exchanging Governments for these Bonds: A \$1,000 U. S. 6 per cent Bond, at 115, will cost \$1,150, which will buy \$1,210 of these First Mortgage

7 per cent Bonds. The following figures show the comparative interest compounded from one to twenty years on each amount respectively:

1st TEAR'S INTEREST \$60 00 96 63 96 97 2d YEAR'S INTEREST..... 63 60 3d YEAR'S INTEREST..... 67 42 103 73 4th YEAR'S INTEREST 71 46 5th YEAR'S INTEREST...... 75 75 6th YEAR'S INTEREST...... 80 29 115 76 7th TEAR'S INTEREST 85 19 Sth YEAR'S INTEREST 90 30 135 96 9th TEAR'S INTEREST..... 95 73 10th YEAR'S INTEREST..... 101 46 155 68 166 56 11th YEAR'S INTEREST 107 55 12th TEAR'S INTEREST 114 00 178 22 13th YEAR'S INTEREST 120 S4 190 69 14th YEAR'S INTEREST 128 09 15th TEAR'S INTEREST 135 78 218 32 16th YEAR'S INTEREST 144 92 233 60 249 95 17th TEAR'S INTEREST 153 64 18th YEAR'S INTEREST 162 58 19th YEAR'S INTEREST 179 33 20th YEAR'S INTEREST 182 67

\$2,063 59 Thus it is shown that the excess of interest for twenty years is \$1,467 85 gold in favor of the Danville Bonds, and this on the amount that would buy \$1,000 of 5-20 Bonds, or \$146,785 on \$100,000, showing the advantage to investors of changing their Governments for Danvilles or similar first-class railway securities. And if the excess of gold, as stated above, should be reduced to currency, it would pro-

duce a still more favorable result. The high premiums which the stock of all the East and West roads in Illinois commands justify the belief that the stocl this road will also soon sell above par, thus u the convertible clause of the Bond a valuable opram.
